ABOUT TREE REMOVALS

A permit is required to remove a healthy, significant tree for existing single-family residential properties and existing commercial properties. This includes pruning that removes more than one-third of the existing branches. If development on the site is proposed or anticipated, removal shall not take place until a permit for construction has been issued.

The number of trees allowed to be removed depends on the property's zoning, the presence of critical areas, the lot size, and the number of trees previously removed. For more information, visit www.sammamish.us/trees.

REMOVAL OF SIGNIFICANT TREES					
LOT SIZE	PERCENTAGE OF TREES ALLOWED TO BE REMOVED PER 10 YEARS	TREES ALLOWED TO BE REMOVED PER YEAR	TOTAL TREES ALLOWED TO BE REMOVED PER 10 YEARS*		
< 0.25 acres (ac)	50%	2	6		
0.25 ac – 0.5 ac	40%	4	12		
> 0.5 ac – 1.0 ac	30%	6	18		
> 1.0 ac – 2.0 ac	20%	8	24		
> 2.0 ac	10%	10	30		

^{*}Not a calendar year

Once verified by the City, trees may also be removed if they are unhealthy or hazardous or are an imminent threat. Please see the following page for more information.

FEES

FEES APPLICABLE TO THIS PROJECT	
Tree Removal	
15% Technology Fee	
See current fee schedule	

Please note that additional hourly fees may apply if related to a code violation or the site is in a critical area or buffer. See page 3 of this form for fee information related to imminent threat tree removal.

DIAMETER RREAST HEIGHT (DRH)						

Sammamish defines significant, heritage, and landmark trees by their Diameter Breast Height (DBH).

Please visit www.sammamish.us/trees for more information on DBH and an online DBH calculator, which will assist in obtaining the information on the following page.

2023-03-TRPA Page 2 of 4

HEALTHY TREES (SIGNIFICANT, HERITAGE & LANDMARK)

The DBH of your tree (see page 2 for more details) determines which tree type you have. Please complete the table below based on the DBH of your tree(s). This information helps determine your replanting requirements.

TREE TYPE	DBH SPECIFICATION(S)	NUMBER TO BE REMOVED
Significant Tree	Coniferous: 8 + inches; Deciduous: 12 + inches	
Heritage Tree	22 + inches	
Landmark Tree	32 + inches	

UNHEALTHY OR HAZARDOUS TREES

Number to be removed:

You will need a TRAQ certified Professional Arborist licensed by the International Society of Arboriculture (ISA) to evaluate the health and condition of your tree.

The Arborist must provide you with an ISA Basic Tree Risk Assessment Form to upload along with this form and the other required submittal items (see page 4).

An Arborist Report may also be requested after City review of the submitted Assessment Form.

ABOUT IMMINENT THREAT TREE REMOVAL

Number removed:

This application should be submitted by property owners that have removed a significant tree due to an emergency event where the tree may have caused serious/life-threatening injury or death. Staff review the information submitted to determine if the removal qualified as an imminent threat.

If the condition that prompted the removal does not qualify as an imminent threat, staff will contact you to discuss next steps. Next steps will include a retroactive permit as a Significant Tree Removal and/or the tree removal actions being subject to Code Enforcement.

TREE REMOVAL SUMMARY

	# PROPOSED FOR REMOVAL
HEALTHY SIGNIFICANT TREES	
HEALTHY HERITAGE TREES	
HEALTHY LANDMARK TREES	
UNHEALTHY OR HAZARDOUS TREES
