SEPA Threshold Determination

**Determination of Non-Significance (DNS) – October 18, 2018
2018 School District Impact Fee Updates**

Description of proposal:

The proposal is to adopt the 2018 School Impact Fees and Capital Facilities Plans for the Lake Washington, Issaquah, and Snoqualmie Valley School Districts. Because the City of Sammamish collects school impact fees on behalf of the school districts, the City must adopt the latest fees as included in the districts’ annual Capital Facilities Plans. This proposal also acknowledges that the Capital Facilities Plans that are adopted by reference in the Comprehensive Plan’s Capital Facilities background volume have been updated.

The City Council will hold a public hearing regarding the school Capital Facilities Plans and Impact Fee updates on November 6, 2018.

Proponent: City of Sammamish, Department of Community Development

Location of proposal: The Capital Facilities Plans and Impact Fees apply within the corporate boundaries of the City

Lead agency: City of Sammamish, Department of Community Development

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 14 days from the date below. Comments must be submitted in writing and received by the deadline described below. Pursuant to SMC 20.15.130 there is no administrative appeal process for this action.

SEPA ENVIRONMENTAL CHECKLIST

Note: Department of Community
Development review provided by Miryam
Laytner on 10/15/18.

Purpose of checklist:

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions for applicants:

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Instructions for Lead Agencies:

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

Use of checklist for non-project proposals: [\[help\]](#)

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the [SUPPLEMENTAL SHEET FOR NON-PROJECT ACTIONS \(part D\)](#). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements –that do not contribute meaningfully to the analysis of the proposal.

A. Background [\[help\]](#)

1. Name of proposed project, if applicable:

The adoption of the 2018 Comprehensive Plan Amendment related to the latest updates of the six-year Capital Facilities Plans for the Lake Washington, Issaquah, and Snoqualmie Valley School Districts.

2. Name of applicant: City of Sammamish
3. Address and phone number of applicant and contact person:

David Goodman, 425-295-0534, 801 228th Ave SE, Sammamish, WA 98075

4. Date checklist prepared: October 15, 2018
5. Agency requesting checklist: City of Sammamish, Department of Community Development
6. Proposed timing or schedule (including phasing, if applicable):

These amendments to the Comprehensive Plan are anticipated to be presented to and approved by the City Council on November 6, when there will be a public hearing on the matter.

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

Amendments are subject to updates at the City Council's discretion and adopted by ordinance. Future school development will be guided by the updated six-year Capital Facilities Plans.

This SEPA checklist evaluates the impacts of the amendment to the City's Comprehensive Plan. Potential impacts resulting from the adoption of the school districts' capital facilities plans have been evaluated by the school districts.

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

The City of Sammamish completed a SEPA threshold determination of non-significance for its 2015 Comprehensive Plan amendments. Notice of adoption was issued on January 22, 2015.

The School Districts have completed the SEPA process for their Capital Facilities plans as follows:

- Lake Washington School District – SEPA Checklist prepared May 22, 2018; Determination of Non-Significance issued May 24, 2018

- Issaquah School District – SEPA Checklist prepared May 1, 2018; Determination of Non-Significance issued May 1, 2018
- Snoqualmie Valley School District – SEPA Checklist prepared May 18, 2018; Determination of Non-Significance issued May 18, 2018.

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.

No known other government approvals are pending.

10. List any government approvals or permits that will be needed for your proposal, if known.

Legislative approval by the City of Sammamish City Council is needed for this proposal.

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

The City is initiating a proposed amendment to the background chapter of the Capital Facilities Element of the City’s Comprehensive Plan, which reference the capital facilities plans for school districts located in Sammamish. The amendment represents an update to the documents and their contents that the Plan references.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

This is a text amendment to the Comprehensive Plan that is not tied to a physical location. The Capital Facilities Plans of each school district may affect current or potential school facilities within Sammamish.

B. ENVIRONMENTAL ELEMENTS

1. Earth

a. General description of the site:

(circle one): Flat, rolling, hilly, steep slopes, mountainous, other

Not applicable – no site is associated with this proposal.

b. What is the steepest slope on the site (approximate percent slope)?

Not applicable – no site is associated with this proposal.

- c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

Not applicable – no site is associated with this proposal.

- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

Not applicable – no site is associated with this proposal. Any development-related land use action will have the option to follow the City of Sammamish's low-impact development regulations (Chapter 21A.85 SMC), which take into account protection of soil.

- e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill.

Not applicable – no site is associated with this proposal. Any development-related land use action will have the option to follow the City of Sammamish's low-impact development regulations (Chapter 21A.85 SMC).

- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

No clearing or construction is proposed as part of this non-project action. Any development-related land use action will have the option to follow the City of Sammamish's low-impact development regulations (Chapter 21A.85 SMC).

- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? [\[help\]](#)

No construction is proposed and no site is associated with this non-project action. Any development-related land use action will have the option to follow the City of Sammamish's low-impact development regulations (Chapter 21A.85 SMC) and will be subject to the City's Surface Water management program (Chapter 13.25 SMC), which include provisions for stormwater and surface water management.

- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: [\[help\]](#)

No construction is proposed and no site is associated with this non-project action. Any development-related land use action will be subject to the City of Sammamish's clearing and grading regulations (Chapter 16.15 SMC), which include provisions to reduce and control erosion.

2. Air

- a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.

Not applicable – no site is associated with this proposal. All future construction actions will be regulated pursuant to the City of Sammamish’s Construction Code (Chapter 16.05 SMC).

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

Not applicable – no site is associated with this proposal. All future construction actions will be regulated pursuant to the City of Sammamish’s Construction Code (Chapter 16.05 SMC).

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

No measures to reduce or control emissions are included in this non-project action. Future actions will be regulated pursuant to the City of Sammamish’s Construction Code (Chapter 16.05 SMC).

3. Water [\[help\]](#)

- a. Surface Water:

- 1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Not applicable – no site is associated with this proposal.

- 2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

Not applicable – no site is associated with this proposal.

- 3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

Not applicable – no site is associated with this proposal. Future actions requiring the placement or removal of fill and dredge materials will be regulated pursuant to the City’s dredging regulations (SMC 25.07.020).

- 4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

No, this non-project action will not require surface water withdrawals or diversions. Future actions requiring surface water withdrawal or diversion will be regulated by the City's Surface Water Management Program (Chapter 13.25 SMC).

5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

Not applicable – no site is associated with this proposal.

6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge. [\[help\]](#)

No, this non-project proposal does not involve any discharges of waste materials into surface waters. Future actions involving discharges of waste materials into surface waters will be regulated by the City's Surface Water Management Program (Chapter 13.25 SMC) and Water Quality regulations (Chapter 13.30 SMC).

b. Ground Water:

1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

No groundwater will be withdrawn from a well for drinking water or other purposes as part of this non-project action. Future actions involving the withdrawal of groundwater from a well for drinking water or other purposes will be regulated by the City's Water Quality regulations (Chapter 13.30 SMC).

2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

This is a non-project action that will not involve waste material discharge into the ground from septic tanks or other sources. Future actions involving waste material discharge into the ground from septic tanks or other sources will be regulated by the City's Water Quality regulations (Chapter 13.30 SMC).

c. Water runoff (including stormwater):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

No surface water runoff will be generated by this non-project action. In the event of future land use development, projects will be required to adhere to the Sammamish Municipal Code's Stormwater Management regulations (Chapter 13.25 SMC).

2) Could waste materials enter ground or surface waters? If so, generally describe. [\[help\]](#)

No waste material will enter ground or surface waters as a result of this non-project action. In the event of future land use development, projects will be required to adhere to the Sammamish Municipal Code's Stormwater Management regulations (Chapter 13.25 SMC).

- 3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe. [\[help\]](#)

Not applicable – no site is associated with this proposal. In the event of future land use development, projects will be required to adhere to the Sammamish Municipal Code's Stormwater Management regulations (Chapter 13.25 SMC).

- d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any:

This non-project action does not include measures to reduce or control surface, ground, and runoff water or drainage patterns. In the event of future land use development, projects will be required to adhere to the Sammamish Municipal Code's Stormwater Management regulations (Chapter 13.25 SMC).

4. **Plants** [\[help\]](#)

- a. Check the types of vegetation found on the site: [\[help\]](#)

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- Orchards, vineyards or other permanent crops.
- wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

Not applicable – no site is associated with this proposal.

- b. What kind and amount of vegetation will be removed or altered? [\[help\]](#)

Not applicable – no site is associated with this proposal. In the event of future land use development, projects will be required to adhere to the Sammamish Municipal Code's tree (Chapter 21A.37 SMC) and low-impact development (Chapter 21A.85 SMC) regulations.

- c. List threatened and endangered species known to be on or near the site. [\[help\]](#)

Not applicable – no site is associated with this proposal.

- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: [\[help\]](#)

This non-project action does not propose any landscaping, use of native plants, or other measures to preserve or enhance vegetation. In the event of future land use development, projects will be required to adhere to the Sammamish Municipal Code's tree (Chapter 21A.37 SMC) and low-impact development (Chapter 21A.85 SMC) regulations.

- e. List all noxious weeds and invasive species known to be on or near the site.

Not applicable – no site is associated with this proposal.

5. **Animals** [\[help\]](#)

- a. List any birds and other animals which have been observed on or near the site or are known to be on or near the site. [\[help\]](#)

Examples include:

birds: hawk, heron, eagle, songbirds, other:

mammals: deer, bear, elk, beaver, other:

fish: bass, salmon, trout, herring, shellfish, other _____

Not applicable – no site is associated with this proposal.

- b. List any threatened and endangered species known to be on or near the site. [\[help\]](#)

Not applicable – no site is associated with this proposal.

- c. Is the site part of a migration route? If so, explain. [\[help\]](#)

Not applicable – no site is associated with this proposal.

- d. Proposed measures to preserve or enhance wildlife, if any:

Not applicable – no site is associated with this proposal.

- e. List any invasive animal species known to be on or near the site. [\[help\]](#)

Not applicable – no site is associated with this proposal.

6. **Energy and Natural Resources** [\[help\]](#)

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

Not applicable – no site is associated with this proposal.

- b. Would your project affect the potential use of solar energy by adjacent properties?
If so, generally describe. [\[help\]](#)

Not applicable – no site is associated with this proposal.

- c. What kinds of energy conservation features are included in the plans of this proposal?
List other proposed measures to reduce or control energy impacts, if any: [\[help\]](#)

Not applicable – no site is associated with this proposal.

7. Environmental Health [\[help\]](#)

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal?
If so, describe.

Not applicable – no site is associated with this proposal. Specific project impacts would be evaluated with project applications.

- 1) Describe any known or possible contamination at the site from present or past uses.

Not applicable – no site is associated with this proposal. Specific project impacts would be evaluated with project applications.

- 2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity. [\[help\]](#)

Not applicable – no site is associated with this proposal. Specific project impacts would be evaluated with project applications.

- 3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project. [\[help\]](#)

Not applicable – no site is associated with this proposal. Specific project impacts would be evaluated with project applications.

- 4) Describe special emergency services that might be required. [\[help\]](#)

No additional special emergency services are required for this non-project action.

- 5) Proposed measures to reduce or control environmental health hazards, if any: [\[help\]](#)

This non-project action does not include proposals designed to reduce or control environmental health hazards. Any future development will be subject to appropriate controls to abate health hazards.

b. Noise [\[help\]](#)

- 1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

None for this non-project action.

- 2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. [\[help\]](#)

This non-project action will not create any noise.

- 3) Proposed measures to reduce or control noise impacts, if any: [\[help\]](#)

This non-project action does not include proposed measures to reduce or control noise impacts.

8. Land and Shoreline Use [\[help\]](#)

- a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe. [\[help\]](#)

This non-project action is not associated with any site.

- b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use? [\[help\]](#)

This non-project action is not associated with any site.

- 1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how: [\[help\]](#)

This non-project action is not associated with any site.

- c. Describe any structures on the site. [\[help\]](#)

This non-project action is not associated with any site.

- d. Will any structures be demolished? If so, what? [\[help\]](#)

This non-project action is not associated with any site.

- e. What is the current zoning classification of the site? [\[help\]](#)

This non-project action is not associated with any site.

f. What is the current comprehensive plan designation of the site? [\[help\]](#)

This non-project action is not associated with any site.

g. If applicable, what is the current shoreline master program designation of the site? [\[help\]](#)

This non-project action is not associated with any site.

i. Has any part of the site been classified as a critical area by the city or county? If so, specify. [\[help\]](#)

This non-project action is not associated with any site.

i. Approximately how many people would reside or work in the completed project? [\[help\]](#)

This non-project action is not associated with any site.

j. Approximately how many people would the completed project displace? [\[help\]](#)

This non-project action is not associated with any site.

k. Proposed measures to avoid or reduce displacement impacts, if any: [\[help\]](#)

This non-project action is not associated with any site.

L. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: [\[help\]](#)

This non-project action is not associated with any site.

m. Proposed measures to ensure the proposal is compatible with nearby agricultural and forest lands of long-term commercial significance, if any: [\[help\]](#)

This non-project action is not associated with any site.

9. Housing [\[help\]](#)

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing. [\[help\]](#)

Not applicable, this non-project action will not result in the provision of housing units.

b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing. [\[help\]](#)

Not applicable, this non-project action will not result in the elimination of housing units.

c. Proposed measures to reduce or control housing impacts, if any: [\[help\]](#)

Not applicable, this non-project action will not result in any housing impacts.

10. **Aesthetics** [\[help\]](#)

a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed? [\[help\]](#)

Not applicable; no new structures are proposed as part of this non-project action. Future development will be regulated by the City of Sammamish's Construction Administrative Code (Chapter 16.20 SMC).

b. What views in the immediate vicinity would be altered or obstructed? [\[help\]](#)

Not applicable – no views will be altered or obstructed as part of this non-project action.

b. Proposed measures to reduce or control aesthetic impacts, if any: [\[help\]](#)

Not applicable – no impacts to aesthetics will be created as part of this non-project action.

11. **Light and Glare** [\[help\]](#)

a. What type of light or glare will the proposal produce? What time of day would it mainly occur? [\[help\]](#)

Not applicable – no impacts to light or glare will be created as part of this non-project action.

b. Could light or glare from the finished project be a safety hazard or interfere with views? [\[help\]](#)

Not applicable – no impacts to light or glare will be created as part of this non-project action.

c. What existing off-site sources of light or glare may affect your proposal? [\[help\]](#)

Not applicable – no off-site sources of light or glare will be affect this non-project action.

d. Proposed measures to reduce or control light and glare impacts, if any: [\[help\]](#)

Not applicable – no light or glare impact will come about as a result of this non-project action.

12. Recreation [\[help\]](#)

- a. What designated and informal recreational opportunities are in the immediate vicinity? [\[help\]](#)

This non-project action is not associated with any site.

- b. Would the proposed project displace any existing recreational uses? If so, describe. [\[help\]](#)

This non-project action is not associated with any site.

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: [\[help\]](#)

This non-project action is not associated with any site.

13. Historic and cultural preservation [\[help\]](#)

- a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers located on or near the site? If so, specifically describe. [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

- b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources. [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc. [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

- d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required. [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

14. Transportation [\[help\]](#)

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any. [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop? [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

- c. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate? [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

- c. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).

Not applicable - this non-project action is not associated with any site.

- e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

- f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and no passenger vehicles). What data or transportation models were used to make these estimates? [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

- g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe. [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

- h. Proposed measures to reduce or control transportation impacts, if any: [\[help\]](#)

Not applicable - this non-project action is not associated with any site.

15. **Public Services** [\[help\]](#)

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe. [\[help\]](#)

This non-project action will not result in an increased need for public services.

- b. Proposed measures to reduce or control direct impacts on public services, if any. [\[help\]](#)

This non-project proposal does not include measures to reduce or control direct impacts on public services.

16. Utilities [help]

- a. Circle utilities currently available at the site: [help]
electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system,
Other _____

Not applicable - this non-project action is not associated with any site.

- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

Not applicable - this non-project action is not associated with any site.

C. Signature [help]

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature: David Goodman

D. Supplemental sheet for non-project actions [help]

(IT IS NOT NECESSARY to use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

This non-project action will not to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise.

Proposed measures to avoid or reduce such increases are:

Not applicable - this non-project action is not associated with any site.

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

This non-project action will not affect plants, animals, fish, or marine life.

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

Not applicable, this non-project action will not affect plants, animals, fish, or marine life.

3. How would the proposal be likely to deplete energy or natural resources?

This non-project action will not deplete energy or natural resources.

Proposed measures to protect or conserve energy and natural resources are:

Not applicable, this non-project action will not deplete energy or natural resources.

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

Not applicable, this non-project action will not use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands.

Proposed measures to protect such resources or to avoid or reduce impacts are:

Not applicable, this non-project action will not affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands.

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

Not applicable, this non-project action will not affect land and shoreline use or allow or encourage land or shoreline uses incompatible with existing plans.

Proposed measures to avoid or reduce shoreline and land use impacts are:

Not applicable, this non-project action will not affect land and shoreline use or allow or encourage land or shoreline uses incompatible with existing plans.

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Not applicable, this non-project action will not increase demands on transportation or public services and utilities.

Proposed measures to reduce or respond to such demand(s) are:

Not applicable, this non-project action will not increase demands on transportation or public services and utilities.

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

Not applicable, this proposal will not conflict with local, state, or federal laws or requirements for the protection of the environment.
