RE: Inglewood Hill Stormwater Retrofit and Non-motorized Improvement Project

Dear Resident:

We are pleased to inform you that the Department of Public Works is preparing to advertise the above project to construct stormwater conveyance, water quality facilities, sidewalks and roadway resurfacing. The goals of this project are to address existing drainage and erosion problems, provide non-motorized improvements on Inglewood Hill Road, and to support stormwater needs of future development projects within the area.

Major features of the project include:

- 5,700 feet of stormwater conveyance pipe
- 30 foot x 60 foot sand filter vault for stormwater quality treatment at 208<sup>th</sup> Ave NE/Inglewood Hill
- 7 modular wetland systems for stormwater quality treatment
- Replacement of existing stormwater outfall to Lake Sammamish
- 3,200 feet of empty conduit for future fiber optics
- 3,200 feet of curb, sidewalk, planter strips, and bike lanes on Inglewood Hill Road NE from ELSP to 212<sup>th</sup> Ave NE
- Water main replacement on Inglewood Hill Road, 211<sup>th</sup> Pl NE, and 212<sup>th</sup> Ave NE (completed through Interlocal Agreement with Sammamish Plateau Water and Sewer District)
- Asphalt restoration and overlay of project limits (will be done under separate contract in 2017)

The current schedule is as follows:

Jan – Mar 2016	Final Design, Final Permitting, Public Outreach, Easement Negotiations
Mar- April 2016	Relocation of underground and overhead utilities
Mar 2016	Advertise and Bid Construction Contract
Apr 2016	Award Construction Contract with Notice to Proceed
Apr - Oct 2016	Project Construction, including temporary roadway patching
July – Aug 2017	Final Asphalt Restoration and Overlay
Oct 2017	Project Closeout

We anticipate you will experience the normal amount of dust and noise associated with construction. Additional impacts will include limited, partial road closures and traffic delays, generally 10 minutes or less, and temporary reduced shoulder parking and driveway access. We will coordinate closely with homeowners who will be directly impacted by any temporary, limited driveway access.

We will have a construction inspector who will be onsite to help coordinate and answer questions. Please feel free to contact me if you need further information at 425-295-0567 or [tdalziel@sammamish.us](mailto:tdalziel@sammamish.us). I look forward to working closely with your neighborhood in the coming year. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Tawni Dalziel". The signature is fluid and cursive, with the first name "Tawni" and last name "Dalziel" clearly distinguishable.

Tawni Dalziel, P.E.  
Sr. Stormwater Program Manager
