

Sammamish Landing Master Plan		
In the past year, which of the following local or neighboring waterfront beach parks have you visited?		
Answer Options	Response Percent	Response Count
Pine Lake Park, Sammamish	56.8%	25
Beaver Lake Park, Sammamish	40.9%	18
Houghton Beach Park, Kirkland	27.3%	12
O.O. Denny Park, Kirkland	11.4%	5
Park at Bothell Landing, Bothell	18.2%	8
Sammamish River Park & Trail, Bothell	27.3%	12
Lake Sammamish State Park, Issaquah	61.4%	27
Matthews Beach Park, Seattle	22.7%	10
Other (please specify)	45.5%	20
<i>answered question</i>		44
<i>skipped question</i>		1

Number	Response Date	Other (please specify)
1	09/06/2008	None
2	09/12/2008	Luke McRedmond Park
3	09/13/2008	Idlewood Park on Lake Sammamish
4	09/13/2008	Kirkland marina
5	09/14/2008	idlewood
6	09/15/2008	Magnuson Park, Seattle
7	09/16/2008	Rattlesnake
8	09/16/2008	I live on the lake
9	09/16/2008	Idylwood Park
10	09/16/2008	Gasworks Park, Golden Gardens Park, Tracey Owens Park
11	09/16/2008	Marymoor, E. Lake Sammamish Trail
12	09/16/2008	marymoor
13	09/16/2008	Gas Works, Eliot Bay, Sammamish Rowing
14	09/17/2008	Lake Sammamish (Rail) Trail
15	09/17/2008	East Lake Sammamish Trail.
16	09/17/2008	East Sammamish Park
17	09/18/2008	Idylwood park
18	09/24/2008	Ebright Creek
19	09/24/2008	Idlewilde, Bellevue, WA
20	09/25/2008	Idylwood in Redmond

Sammamish Landing Master Plan	
If you do use any of these parks, what do you like best about it/them?	
Answer Options	Response Count
	34
<i>answered question</i>	34
<i>skipped question</i>	11

Number	Response Date	Response Text
1	09/05/2008	I just lime the tranquility of the water.
2	09/06/2008	boat launch
3	09/09/2008	well planned surroundings and beautiful settings
4	09/09/2008	Natural beauty. Shade trees. Convienence.
5	09/11/2008	trails, trees and natural areas
6	09/12/2008	Access to and from the water for non-motorized boats
7	09/12/2008	Lake Sammamish state park has some wonderful beaches and a good coast line for launching kayaks and canoes.
8	09/13/2008	The ability to put my kayak into the lake.
9	09/13/2008	Easy access and close to play area with adequate parking.
10	09/13/2008	I enjoy being able to launch my kayak at the many beaches on lake wa. I wish that there was more non moterized boat launches on lake sammish
11	09/13/2008	At Pine Lake, the kids enjoy the proximity of the swim area and play areas. We use the park area almost year-round (except for the very wet, cold season).
12	09/13/2008	Pine Lake is wonderful. No motor boats. Dogs are allowed.
13	09/14/2008	extensive parking and no boat launch
14	09/14/2008	I like the ones without a swimming beach, just rest rooms and picnic tables
15	09/15/2008	Manual boat access (for Kayaks)
16	09/15/2008	Easy water access, beach, ducks
17	09/16/2008	The natural setting, water access and the environmental health of the park and waters.
18	09/16/2008	Open space for walking in such a beautiful setting. Also enjoy seeing how much use the parks get from families in the area!!
19	09/16/2008	Pedestrian and dog access
20	09/16/2008	Beach/water accessibility, restrooms, swimming, grassy areas, bicycle accessibility
21	09/16/2008	location, accessibility and activities; also restroom facilities that are maintained
22	09/16/2008	access, proximity to water, open spaces, playgrounds
23	09/16/2008	Diverse Populations & ease of access
24	09/17/2008	I like the limited amount of parking space at Pine Lake Park because it helps keep the total population of users down to a more "Park Like" setting, as a place to relax.

25	09/17/2008	Wooded semi-natural but still accessible waterfront. My family enjoys a wooded grassy waterfront area that still allows access to the lake by people. A 100% natural thickly vegetated area is of no use to users in an urban park (might be more approp in a natural preserve situation). At the same time a barren plain of sand, spotted with goose poop, such as at Lk Sammamish St Park and to some extent at Matthews beach is just plain ugly.
26	09/17/2008	I like the natural environment, not lots of ball fields and lights.
27	09/17/2008	Priority order:easy parking; landscaping is appealing; childrens playground is clean;
28	09/18/2008	Access to the beach. Powerboat access at Idylwood park
29	09/20/2008	Their close proximity.
30	09/20/2008	easy access
31	09/24/2008	I like the natural features, (woods and lake) of Pine and Beaver Lake..and I can walk to both of them from my house...they can be connected for a nice walk. I also can walk to Ebright Creek (wish there was more sidewalk on 212th) I like the other parks as they have easy access to the bike trails...good place to get off the bikes and rest and have lunch.
32	09/24/2008	Access to the Lake for swimming, picnic tables, grassy areas with shade and playground equipment.
33	09/25/2008	The beach is easy to launch from and there are toilets.
34	09/25/2008	Nature, walking, beach, putting in rubber raft.

Sammamish Landing Master Plan	
If applicable, please complete the following sentence: "I would visit one or more of these waterfront parks more often if they offered:"	
Answer Options	Response Count
	28
<i>answered question</i>	28
<i>skipped question</i>	17

Number	Response Date	Response Text
1	08/21/2008	Kayak access to Lake Sammamish without having to deal with motor boat traffic
2	09/05/2008	Water area for dogs to swim.
3	09/05/2008	access to a larger body of water.
4	09/06/2008	Close proximity to other amenities such as places to eat, entertainment, easy pedestrian access without needing to drive, safety and eyes on the street.
5	09/09/2008	Camping.
6	09/11/2008	not applicable
7	09/12/2008	a safe place to land, and I'd be there in an instant if had a clean restroom!
8	09/12/2008	Easy access for kayakers.
9	09/13/2008	A place to park and a put in for non-motorized boats.
10	09/13/2008	Plenty of parking, play area, picnic area and access to bike trail.
11	09/13/2008	easy launching for non moterized boats "kayak"
12	09/15/2008	manual boat access
13	09/15/2008	better views, some water features like fountain, etc. for kids to soak on hot days
14	09/16/2008	Easier access for personal powered water craft. Beaver lake boat ramp requires a permit.
15	09/16/2008	a coffee shop, resteraunt and gas pump
16	09/16/2008	I would be wonderful to have a boat boat launch facility other than Lake Samm. Something on the north end of the lake.
17	09/16/2008	Bicycle access
18	09/16/2008	parking/ease of access
19	09/16/2008	Well, just, go to Greenlake. Full length water front, scads of parking, and a vital community within walking distance
20	09/17/2008	I would visit the East Lake Sammamish (Rail) Trail more frequently if there was paved and signed parking.
21	09/17/2008	No Dogs!
22	09/17/2008	I would really like to see the ELST with some type of water access (as the water does belong to the public - we just cannot get to it).
23	09/17/2008	as I havent been to a WATERFRONT park so I cant compare. As long as parks are kept well maintained with easy parking I would visit them.
24	09/18/2008	Power boat docking and boat ramp

25	09/20/2008	Hiking trails or quick walking connections to existing hiking trails. If they had a clean, well-maintained, attractive swimming area--only Pine Lake offers this in Sammamish right now and it's very busy with people because of this. We need more options. Lake Sammamish State Park is not well maintained, feels a little junky and could use some landscaping. An additional waterfront park in Sammamish, particularly on the North side where there isn't anything, would be fabulous and well used.
26	09/20/2008	better parking facilities for my car
27	09/25/2008	A drop off for kayaks near the beach that is separate from a motorized boat launch site.
28	09/25/2008	easier access with no motor boats nearby for rubber rafts or other small non motorized craft.

Sammamish Landing Master Plan						
What mode of transportation would you and or other members of your family use to get to the Sammamish Landing Park? Please rank each from "frequently" to "never"

Sammamish Landing Master Plan		
How do you feel the City should approach its development of this waterfront park?		
Answer Options	Response Percent	Response Count
I would like to see any sort of development held to an absolute minimum, and provide limited opportunities for public access.	26.2%	11
I would like to see a plan that shows a clear effort to balance the protection of natural resources and recreational access.	45.2%	19
I would like to see the most sensitive areas, such as the wetlands, protected via limited access, with the rest of the site available for development of an abundance of trails, beach access, picnic areas, play areas, etc.	28.6%	12
<i>answered question</i>		42
<i>skipped question</i>		3

Sammamish Landing Master Plan	
Given that Sammamish Landing is a narrow linear park with a high percentage of wetland areas, what specific park improvements would you like to see at the park?	
Answer Options	Response Count
	35
<i>answered question</i>	35
<i>skipped question</i>	10

Number	Response Date	Response Text
1	08/21/2008	Lake access for kayaks
2	09/05/2008	Beach and water access for the public, a place to have a picnic, a large dock to launch my canoe.
3	09/06/2008	Not worth investing the money
4	09/06/2008	none
5	09/09/2008	Can't comment until I see the area or a picture of the area.
6	09/11/2008	very limited access with maximum wetland and eagle perching protection and natural interpretive areas
7	09/12/2008	Unobtrusive minimal boat launch for non-motorized watercraft, primarily kayaks/canoes.
8	09/12/2008	Picnic area, restroom facilities, and the ability to launch kayaks and canoes.
9	09/13/2008	beach access.
10	09/13/2008	non moterized boat launch, kayak rentals and canoes, wooden walking paths for wetlands
11	09/13/2008	Place to enjoy the setting...picnic
12	09/14/2008	as little as possible
13	09/14/2008	rest rooms, a few picnic tables, non-motorized boat launch
14	09/15/2008	It would be nice to have boardwalks for passive activities, such as nature observation and birdwatching.
15	09/15/2008	swimming
16	09/16/2008	Low impact access to viewing the wetlands.
17	09/16/2008	play ground, swimming area and picnic area with bathrooms.
18	09/16/2008	Places to sit for a picnic, reading, resting from hiking the trail etc.
19	09/16/2008	Boat launch facility
20	09/16/2008	Cut some ground cover and replace with grass. Leave all trees with a diameter of more than 6". Leave sections as designated wilderness.
21	09/16/2008	Restrooms, beach access, parking, interpretive trails discussing: <ul style="list-style-type: none"> - the ecosystems, flora and fauna - Native American and white settlers' historical roots, including the history of the railroad.
22	09/16/2008	A priority should be given to protecting the wetlands and educating the users as to their value. That is more important than building a boat ramp and a swimming beach. (There is public access to the lake at Lake Sammamish State park.

23	09/16/2008	playground; swimming; kayak/canoe launch
24	09/16/2008	See Green Lake
25	09/17/2008	Paved and properly signed parking.
26	09/17/2008	Swimming beaches and docks. Waterfront lawns for relaxation, reading, and natural picnicking (no need for picnic tables). Restrooms. Childrens play structure.
27	09/17/2008	a few picnic tables, perhaps a swimming area, canoe launch (no motorized water craft), bathrooms
28	09/17/2008	Very simple and environmentally sensitive lake access via trails. PLease, no playgrounds, skate parks, etc. Keep this as natural as possible, while allowing access to the lake and the woods.
29	09/17/2008	develop it into a park where there is nice grass and a place to sit by the water and relax.
30	09/20/2008	Most important is non-motorized watercraft and human access to the lake for swimming and canoeing/kayaking. Family picnicking would also be high on the list with a playground and nature hikes/walking
31	09/20/2008	Only picnic areas, no access by vehicles. Because E. Lake Sammamish Parkway is already narrow at this point and if you are going to allow vehicles to launch boats, kayaks, etc. this will impact traffic negatively, cause congestion and possibly accidents when cars try to load/unload water craft.
32	09/24/2008	Boardwalk, benches, picnic tables, rest room, water fountain, native plants
33	09/25/2008	I think we need to capitalize on as much of the area as we can for public use for swimming, picnicing, relaxing, etc. We have plenty of wetlands so it would not hurt to channel some of the water to create drylands that can be used since the strip of land is narrow. I would like to see the use of this land be beneficial to as many people as possible.
34	09/25/2008	Drop off site for non motorized boats, toilets, signage describing wetland areas and how to keep the Lake water healthy. Bike park. No dogs in the water so people can swim. Some picnic tables.
35	09/25/2008	Only improvements that require lake useage, no sport fields, group areas etc.

Sammamish Landing Master Plan	
Do you have any other comments regarding Sammamish Landing or the planning process?	
Answer Options	Response Count
	26
<i>answered question</i>	26
<i>skipped question</i>	19

Numbe	Response Date	Response Text
1	09/05/2008	Remove invasive species. Make sure the beach area is visible from the bike trail for safety. Install a nice dock for canoes and kayaks. Install small picnic shelters like the beautiful ones at Pine Lake Park for family picnics and birthday parties and such. Low impact development.
2	09/06/2008	Except for water sports such as swimming, boating this narrow, hard to access park will have no use. An extended trail already exists for hiking and biking. The only access to the trail is by auto because there are no bus services and distance from most homes requires use of car. The park is at the edge of town and requires motor transportation. Millions of dollars to start and additional millions to finish with the promise of little use, not worth it.
3	09/06/2008	how will you deal with parking?
4	09/09/2008	Go for it!
5	09/11/2008	maximum wetland and eagle perching protection is important here
6	09/12/2008	Will look forward to the finished product.
7	09/13/2008	Please hurry!Thank you!
8	09/13/2008	I would prefer to have the funds spent on a community Aquatic center vs. spending more money on another park.
9	09/13/2008	I would hope that the park would be open to the changing times and allow the park to really encorage non moterized boats
10	09/14/2008	Parking on 187th has been a problem since the trail opened. Crime has increased since the trail was opened including graffitti, burglary, vandalism, and even a flasher on the trail.□
11	09/14/2008	no
12	09/16/2008	I need to know more about the space to comment.
13	09/16/2008	How are you going to deal with the adjacent property owners private land? We don't live by this stretch, however we feel we have people entering our property and gaeking at us all the time. I can't imagine how intrusive this will be for these owners. I hope you take careful consideration for them.
14	09/16/2008	No
15	09/16/2008	Keep homeowners near the park in the loop and keep their thoughts to the forefront.
16	09/16/2008	Thank you!
17	09/16/2008	A map showing the location would be nice.

18	09/16/2008	Zone the entire Sammamish Lakeshore as Park and establish a plan to acquire the properties as they become available. It may take a 100 years but this lake shore is the jewel of Sammamish and should be made available to all. See Green Lake.
19	09/17/2008	Since it is a small park it is most suited for those who want to launch a canoe/kayak or just swim.
20	09/17/2008	Please do NOT make it a park for dogs - running loose or not. They have destroyed an entire area in Marymoor - that's enough!
21	09/17/2008	Strong concern about traffic congestion on East Lake Sammamish. We live off NE 16th which is already extremely unsafe turning left onto East Lake Sammamish. My fear is that the extra congestion will make this even more unsafe. The left hand turn lane off NE 16th needs to be completed prior to extra traffic due to Sammamish Landing. There are many homes off NE 16th and with only 1 exit out for all of us I am concerned at the increased probability of accidents.
22	09/20/2008	I really hope we can get something like this for the North side. Lake Sammamish is so beautiful and yet it is largely inaccessible for the bulk of the public due to private development. Something on the North end of the lake would be a helpful improvement.
23	09/20/2008	I am for parks, but considering the ingress and egress at this location, I am against it.
24	09/24/2008	I think it is a wonderful idea!
25	09/25/2008	Parking will need to be worked out along with increased turning lanes on East Lake Sammamish Parkway.
26	09/25/2008	If you have partners helping you develop, make sure that Sammamish remains in control and all is very well spelled out as to the benefit of any group opposed to general public benefit. Public benefit should not suffer from the group's benefit.
