Subject: EIS public comment

[CAUTION - EXTERNAL EMAIL]

I support a variety of housing options in Sammamish. We are not an exclusive/gated community. We have schools, we have commercial centers. We want our housing to reflect our diverse community that includes seniors who want to downsize and workers we now see as essential.

I also am a strong supporter of parks and open space. It is important that parks and open space remain a priority and that land acquisition be a part of this. Parks and open space, as well as trail connections, are essential for the health and welfare of our community.

I also support action steps to a more sustainable and green city. Climate change must be addressed at every level including by the City.

How many comments has the City received on the EIS? Information is lacking in Sammamish. Like other small cities who've lost local newspapers, Sammamish needs to come up with other ways to inform the public and ways for the council to know what the community wants.

Thank you.
