With 14 parks and preserves covering 611 acres of park land, there are plenty of options for recreation and relaxation. A list of park amenities and a park map is located in the guide on pages 19 and 20. In these parks, there are also 67 special events throughout the year, of which the majority are free to attend.

Volunteer
Every month, multiple volunteer projects are scheduled throughout the City of Sammamish. Activities scheduled in Sammamish parks include plantings; mulching; weeding; invasive plant removal; trail work; and building benches, nesting boxes, boardwalks and lookout platforms. Volunteer help is also needed at our community events at City Hall. Volunteer opportunities are available for individuals and groups. For more information or to sign up, go to www.sammamish.us/volunteer or email ejones@sammamish.us.

Plant Stewards
Our Plant Stewards go through the Washington Native Plant Society’s Native Plant Stewardship Program, where they learn about Puget Sound ecology, restoration, urban forestry and are trained in native plant identification and invasive plant management. Upon completion of this program, Stewards volunteer their time developing and executing a restoration project in one of our parks. In previous years, Plant Stewards developed a native plant garden in Lower Commons Park, worked on wetland restoration at Illahee Trail, and are currently leading volunteer restoration projects in Ebright Creek Park. A new stewardship training will be held in fall 2019, so keep an eye out for more information.

Trail Stewards
After training with Washington Trails Association, Trail Stewards volunteer their time building trails and leading volunteer projects for the City. Trail Stewards have been hard at work building miles of trails and trail structures in Beaver Lake Preserve, Evans Creek Preserve and Big Rock Park! Keep an eye on our Volunteer Page and you can help WTA and our Trail Stewards build new trails and trail structures in Sammamish parks!

Storm Water Stewards
The storm water stewards are working to turn storm water ponds into more ecologically friendly ponds by planting native trees and shrubs that benefit water quality and provide habitat for Sammamish wildlife.

SAMMAMISH COMMUNITY
831 228th Ave SE
Sammamish, WA 98075
425.391.4840
The City of Sammamish has a unique approach to providing recreation programs and services that is based on partnerships and agreements with other community-based recreation providers or through contract with other independent instructors for services. The City relies on other providers for most of its recreation services. The following is a list of the primary providers of these services.
Human Services

The City of Sammamish aims to ensure that all its residents can receive needed human services. To do that, Sammamish uses some of its local tax money to fund specific programs, all of them are carefully selected through a competitive process. These city-supported programs offer services that are affordable (low cost, adjusted according to income, or free) and accessible. Programs typically receive support from the city for two calendar years. Every even numbered year the City accepts proposals from non-profit agencies seeking funding support in the next biennium budget. Contact Rita Badh, Community Services Coordinator, at 425-295-0579 or rbadh@sammamish.us if you have any questions.
