**Subject:** EIS scoping comment

**[CAUTION - EXTERNAL EMAIL]**

Completing an update to the Town Center EIS is long overdue and should have been completed years ago. Given the many changes in the Town Center plans and vision over the years, and because of the prior poor planning by the city in other areas (especially in infrastructure), a study over 10 years ago just doesn't reflect the real world situation on the ground today. I fully support, and hope the City Council supports, a complete revision to the ancient Town Center EIS, or a new EIS being done for the Town Center.

Sincerely,

Thomas E. Hornish
